

卫生软科学

Weisheng Ruanhexue

2026年1月15日出版 第40卷第1期(总第360期)

目次

聚焦医改

山东省紧密型县域医共体运行效率及其影响因素研究

——基于 DEA-Malmquist 和 Tobit 模型 王浩, 张志烁, 徐雪晴, 等 (1)

跨省异地就医行为高发的组态分析及对策

——以城乡居民基本医疗保险为例 王超, 张鑫 (7)

软科学研究

宫颈癌患者生命质量与社会支持的关系及提升对策研究 张天赐, 陈慧艳, 谭健烽, 等 (12)

多元方法视角下的中塞卫生合作机制研究 陆奕斐, 吴韬, 陈灿宇, 等 (18)

社区体医融合慢病管理的协同治理路径

——基于“规则-数据-响应”的数智框架 宋博雅, 郝琳 (24)

政策创新扩散理论下我国基层医疗卫生机构医养结合政策扩散特征研究 王健, 马晓龙, 宋科瑜, 等 (31)

老年健康

基于 PEST-SWOT 的养老陪护机器人发展策略研究 张童, 谢明伟, 王若佳, 等 (39)

卫生政策

“十四五”时期我国省级层面数字健康政策量化评价

——基于 PMC 指数模型 李程锦, 程远远, 高泽方, 等 (45)

卫生服务

基层医疗卫生机构中医药服务能力评价指标体系研究现状与进展 朱沂蒙, 杜佳妮, 王文婷, 等 (50)

卫生管理

深圳智慧健康城市建设的实践探索与经验启示 都率, 严晓玲, 毛阿燕, 等 (57)

卫生资源

天津市医疗卫生资源配置现状及公平性分析 朱惠楠, 刘春雨, 田野 (62)

卫生经济

DRG 支付方式下医院医保精细化管理效果分析

——以武汉市某三甲医院为例 陈鑫岚, 苏岱, 罗毅, 等 (68)

医疗保障

我国辅助生殖类医疗服务医保政策的省际比较研究

——基于效益、效率与公平的权衡视角 施佳轩, 李浩飞, 徐立君, 等 (73)

医学教育

东北地区公共卫生专业在读硕士研究生基层就业偏好与异质性研究

——基于离散选择实验 田若童, 付丹阳, 程怀志, 等 (78)

调查研究

在职人群健康状况对主观幸福感的影响分析 胡桐, 张柠 (83)

疾病预防与控制

基于反脆弱发展理论的乡村医生心脑血管疾病管理能力提升策略研究

——以重庆市綦江区为例 向学花, 李华梅, 舒黄芳, 等 (89)

信息

迈向“康寿幸福”: 数智化驱动中国老龄化评估体系升级“十五五”老年健康发展新蓝图

——中国卫生经济学会老年健康经济专业委员会 2025 年学术年会综述 王红漫 (94)

CONTENTS

Study on the operational efficiency and its influencing factors of close-knit county-level medical consortia in Shandong Province — based on DEA–Malmquist and Tobit modeling	WANG Hao, ZHANG Zhishuo, XU Xueqing, et al (1)
Configurational analysis and countermeasures for high incidence of cross-provincial health-seeking behavior — taking the basic medical insurance for urban and rural residents as an example	WANG Chao, ZHANG Xin (7)
Study on the relationship between quality of life of patients with cervical cancer and social support and countermeasures for enhancement	ZHANG Tianci, CHEN Huiyan, TAN Jianfeng, et al (12)
Research on China–Serbia health cooperation mechanisms from the perspective of multiple methods	LU Yifei, WU Tao, CHEN Canyu, et al (18)
The collaborative governance path for chronic disease management in community-based integration of physical activity and medical care — based on the “rule–data–response” digital intelligence framework	SONG Boya, HAO Lin (24)
Research on the policy diffusion characteristics of the integration of medical and elderly care services in China’s primary healthcare institutions under the diffusion of innovations theory	WANG Jian, MA Xiaolong, SONG Keyu, et al (31)
Research on development strategies of elder-care companion robots based on PEST–SWOT	ZHANG Tong, XIE Mingwei, WANG Ruoqia, et al (39)
Quantitative evaluation of digital health policies at provincial level during the China’s “14th Five-Year Plan” period — based on PMC index model	LI Chengjin, CHENG Yuanyuan, GAO Zefang, et al (45)
Research status and progress of evaluation index system for traditional Chinese medicine service capacity of primary healthcare institutions	ZHU Yimeng, DU Jiani, WANG Wenting, et al (50)
Practical exploration and insights of the construction of a smart healthy city in Shenzhen	DU Shuai, YAN Xiaoling, MAO Ayan, et al (57)
Analysis of the status quo and equity of healthcare resource allocation in Tianjin	ZHU Huinan, LIU Chunyu, TIAN Ye (62)
Analysis of the effectiveness of fine management of medical insurance in hospitals under the DRG payment system — a case study of a Grade-A tertiary hospital in Wuhan	CHEN Xinlan, SU Dai, LUO Yi, et al (68)
Study on inter-provincial comparison of medical insurance policies for assisted reproductive technology in China — from the perspective of trade-offs among benefits, efficiency and equity	SHI Jiaxuan, LI Haofei, XU Lijun, et al (73)
Study on the preferences of postgraduates majoring in public health in Northeast China for taking jobs at the grassroots level and its heterogeneity — based on discrete choice experiment	TIAN Ruotong, FU Danyang, CHENG Huaizhi, et al (78)
Analysis of the impact of health status on subjective well-being of employed persons ...	HU Tong, ZHANG Ning (83)
Study on strategies for improving the management capabilities of rural doctors for cardiovascular and cerebrovascular diseases based on the Anti-Fragility Theory — taking Qijiang District of Chongqing as an example	XIANG Xuehua, LI Huamei, SHU Huangfang, et al (89)
